New SPIN

Originally found in finer hotels, yachts and commercial cleaners worldwide, here is a washer and dryer designed and built for those McMansions and estates where having 8 baths and 6 bedrooms requires a lot of laundry to be cleaned. These sharp looking stainless steel washer and dryers have a load capacity range from 23 to 70 lbs. and can handle a range of jobs—from Egyptian cotton bath sheets and silk bed linens to horse blankets and cashmere sweaters for the lifestyles of the rich. **8-Concepts** Ring 332.405.8400 www.8c.com

BABY Art

This newly designed collection of textured rugs is part of designer Raju Peddada's *Tea-Ma Collection*. The "soul" of this collection are nine rugs "designed" by Raju's four-year-old son. The aesthetic basis of the nine rugs is a blend of Zen Principles of accidental beauty and natural chaos of kid knotes. The goal was to capture the essence of accidental beauty. The application from conceptual to manufacturing entailed an innovative mixture of weaving processes that include high and low cut piles of Tuft and Shag. **Peddada** Ring 847.298.3611 www.peddada.com
