Quicky

Design: Johannes Foersom and Peter Mørt-Lorenzen

Quicky lives up to its name. Appropriate for classroom use, it opens and closes at the blink of an eye, creating extra work space as desired. What's more, the lightweight table is not only stackable but also interconnectable, thanks to a simple mechanism. Veneered tabletops come in birch or beech. Available in five sizes.

Confair

Design: Fritz Frenkler, Justus Kolberg

Stackable, lightweight and strong, the Confair chair can be covered in various fabrics or leathers from the Wilkhahn collection. A black backrest relies on solid-coloured polypropylene to hide scratches. A desktop provided with casters has a tilt function. Frames are available in polished, anodized, coated or chromed aluminium.

Haaraatorr

Design: Raju Peddada IV

The design of this rug from Peddada's Tex-Mix collection is based on a drawing by the CEO's two-and-a-half-year-old son. The rug, which combines ancient and modern weaving skills, is available in various shapes, sizes and colourways.

Exxo

Design: Aestus

An attractive sculptural radiator displaying a taut grille of rectangular stainless-steel tubes, Exxo has been designed to enhance any public space. It comes in a vertical or horizontal model, with a brushed or polished finish, and in virtually any length or height.
